Interests

Listening Music

Travelling

Solving Sudoku

Coding

Rohan Jain

I am a code geek; I love to do coding so much and want to become a successful software engineer. Currently I am working on improving my Data Structures and Algorithms.

The thing I most loved about coding is to find bugs which are causing errors in the programs.

As of now I know C, C++, and Front-End language like HTML, CSS and JavaScript. Also, I am learning React-JS.

Education

B Tech (Computer Science)	August 2019- Present
